

Pride *by* Safe Performance.

HEALTH, SAFETY & ENVIRONMENTAL POLICY

Sanjel Corporation is committed to the health and safety of our employees and contractors, and protecting the environment. HSE is managed as an integral component of our integrated oilfield services business.

We demonstrate our commitment through...

Pro-action

Sanjel will work to continuously reduce the risk of loss to people, equipment and the environment. We will proactively assess our business processes and ensure that HSE remains an integral component of them. We will recognize our achievements and reward excellence.

Responsibility

Sanjel will continue to develop and implement HSE management systems and procedures specifically designed to prevent activities or conditions that pose a threat to human health, safety or the environment. We will establish and document specific responsibilities for management, supervisors, and workers.

Innovation

Sanjel will integrate industry leading HSE principles into our operational, research and development, and product design decision making. We will actively search for leading edge HSE developments and evaluate their ability for enhancing our HSE management systems.

Direct Communication

Sanjel will openly communicate our HSE commitment to employees, contractors, vendors, customers, and government. We will inform all Sanjel employees and contractors that they are responsible for working in a safe manner, while protecting the environment, at all times.

Excellence

Sanjel will meet or exceed all applicable government regulations and accepted industry practices. We will ensure compliance with internal and external HSE standards by making it a component of our training and performance reviews for all employees.
